

# DIGITAL PHOTO SERVICE

Passport and visa photos can often be a hassle to get, especially if you do not have enough time in your day to get them done. Why not skip the frustration and use Visa Service, Inc.'s digital photo service? With prices starting at \$15, you can send a digital photo to Visa Service, Inc. via email, which we will then crop, print and attach to your completed application.

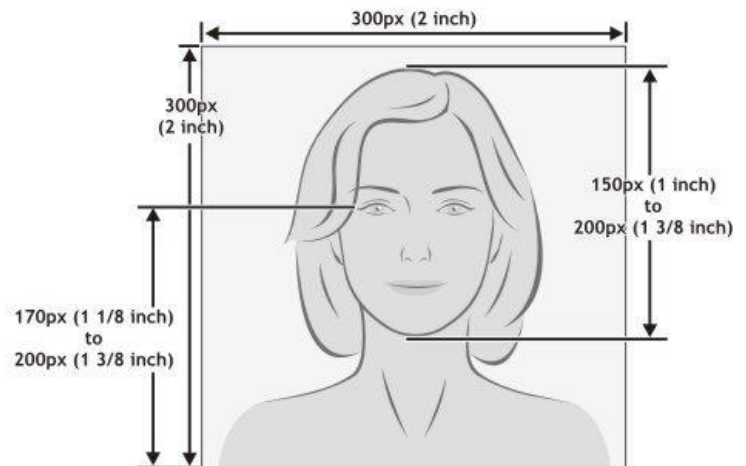

## How to take your digital photo

- ★ Stand as close as possible against a white or off-white wall. This will minimize shadows.
- ★ Turn off harsh overhead lighting so you do not have shadows across your face.
- ★ Have the photographer stand at least 4 feet away from you.

## Digital photo guidelines

Here are a few guidelines to follow when taking your digital photo. Your photo must:

- ★ Be taken in color and be free of shadows
- ★ Have been taken within the last six months
- ★ Have you facing directly into the camera, facing forward with your head straight
- ★ Have your eyes open with no glare from glasses
- ★ Have the proper facial expression depending upon country requirements
- ★ Not have hats, uniforms or head coverings except for religious purposes
- ★ Be in sharp focus with no pixels
- ★ Be at least 2 MB but not more than 15 MB
- ★ Fit the template shown to right

Once you have taken your digital photo, email an unedited .jpeg or .tiff file to Visa Service, Inc. We will then crop the photo to the required size and print the number of photos requested. Visa Service, Inc. is not responsible for the composition of the photo. Acceptance or rejection of the photo is at the discretion of the Consulate, Embassy or US State Department.

## Pricing

- Up to 4 photos – \$15
- 6 photos – \$16
- 8 photos – \$17
- 10 photos – \$18
